

SASP FAQs

Q: Can I put general educational information about sexual assault on the brochures produced using SASP funds?

A: No. SASP funded brochures are to be about the services provided, where to receive services, and who may receive services, and not about general education.

Q: May funds be used to support services to children?

A: Yes. Services rendered to children do not have to be in connection to serving an adult parent and there is no age restriction on providing services to children.

Q: May funds be used to support projects that include education and prevention activities?

A: No. Funds may be used for outreach to inform persons about the services provided by a specific program. For example, a program could use pamphlets, brochures, or community presentations to announce the services available under the grant.

Q: Is there a limitation on the types of sexual violence SASP funds may be used to address?
